Chapter 01 Jobs Tax Credit

100 Qualifying for and Calculating the Jobs Tax Credit

101 Under Miss. Code Ann. Section 57-73-21, income tax credits are available for:

1. Permanent business enterprises primarily engaged in manufacturing, processing, distribution, wholesaling, research and development, warehousing and warehousing activities.
2. Permanent business enterprises designated by rule or regulation of the Mississippi Development Authority (MDA) as air transportation and maintenance facilities, final destination or resort hotels having a minimum of 150 guest rooms, recreational facilities that impact tourism, movie industry studios, telecommunication enterprises, data or information processing enterprises, computer software development enterprises or any technology intensive facility or enterprise.

102 No business enterprise for the transportation, handling, storage, processing or disposal of hazardous waste is eligible to receive this credit.

103 The credit is not available to businesses that move from one location within the state to another location within the state without increasing employment. Any business that utilizes the MDA Job Training Grant Fund will not be eligible for the Jobs Tax Credit authorized under Miss. Code Ann. Section 57-73-21.

104 The jobs tax credit is for each net new full time job created as long as the minimum increase has been achieved and maintained. The minimum increase in jobs necessary to qualify for the credit must occur within 1 year. A full-time job is a job of at least thirty-five (35) hours a week and includes leased employees from an entity that is in the business of leasing employees as long as all other requirements are met. Part-time jobs may not be combined to add up to a full-time job. The credit is based on filled positions and the

employees must be employed in this state and subject to Mississippi Withholding Tax. The credit is allowed each year for 5 years beginning in years 2 through 6 after the creation of the job. The year the jobs are created is year 1. The unused portions of the credit can be carried forward for up to 5 years from the original year in which the excess credit could not be used. The earliest year's unexpired credit may be used first.

105 For purposes of this credit, the counties in Mississippi are classified as Tier Three (less developed), Tier Two (moderately developed), and Tier One (developed). The counties are evaluated and ranked each year based on the unemployment rate and per capita income of each county for the most recent 36 month period. They are then divided into the three previously mentioned groups with one-third of the counties in each group. The classification for a specific county can change from year to year based on this evaluation.

106 This classification is used to determine the minimum number of jobs a business enterprise must create in a given year before it qualifies for the credit. It is also used to determine the amount of credit per job created. The amount of credit per employee and the job levels for each county classification are as follows:

<u>County Classification</u>	<u>Minimum Annual Increase in Number of Jobs</u>	<u>Credit per Job</u>
Tier One	20	2.50% of payroll
Tier Two	15	5.00% of payroll
Tier Three	10	10.00% of payroll

107 If, after qualifying for one five year period, the business increases the number of jobs substantially enough to qualify again for another five year period, they may apply for a second five year period. Each five year period is accounted for separately. Jobs created within an existing five year period that do not meet the minimum number of jobs required to qualify for an additional five year period are allowed to be included within the existing five year period.

108 After a taxpayer has qualified for the credit, the credit is not allowed for a year if the net employment increase falls below the minimum required for qualification. The credit is only lost for the year(s) that the taxpayer is below the minimum. A recapture of credit taken in previous year(s) is not required. If the taxpayer's employment level increases back above the minimum, then the taxpayer may use the credit for the remainder of the period. However, the original five year period for the credit (years 2 through 6) is not extended. A taxpayer can only earn credit at a given level of employment for a single five (5) year period.

109 To determine whether a taxpayer with an existing facility has created the minimum number of jobs to qualify for the credit, the taxpayer must compare the average annual employment level for the previous year with the average annual employment in the current year. If the amount of the increase exceeds the minimum required, then the employer will qualify for

the credit. This allows the credit for employers who have not constructed a new facility, but have substantially increased employment at an existing facility.

- 110 To determine whether a taxpayer with a new facility qualifies for the credit, the average employment for the portion of the year after production was started should be compared with the same period for the previous year. If the increase exceeds the minimum, then the taxpayer will qualify for the credit. For example, a calendar year taxpayer begins doing business in Mississippi and constructs a new facility that begins production on June 1, 2014. To determine whether the taxpayer qualifies for the credit, June through December of 2014 should be compared to June through December of 2013. If the increase meets the minimum requirement, then the taxpayer would qualify for the credit.
- 111 The sale, merger, acquisition, reorganization, bankruptcy or relocation from one county to another county within the state of any business enterprise may not create new eligibility in the current or any succeeding business entity, but any unused job tax credit may be transferred and continued by any transferee of the business enterprise. The Commissioner shall determine whether qualifying net increases have occurred or proper transfers of credit have been made and may require the business enterprise to submit such information as needed for substantiation and qualification.
- 112 The credit cannot be used by any business enterprise or corporation other than the business enterprise actually qualifying for the credits. Credit received by a partnership, LLC or an S-Corporation may be passed through to offset tax due from the activity that created the credit. The credit is subject to the same limitations that the pass through entity would have had. The tax due on salaries or wages paid by an S-Corporation and guaranteed payments to partners by a partnership cannot be offset by the credit.
- 113 The total of the Jobs Tax Credit, the Headquarters Credit and the Research & Development Skills Credit is limited to 50% of the Mississippi income tax liability. These credits may be used in combination with any of the other credits. The credit is not refundable.
- 114 Compliance with the equal pay provisions of the federal Equal Pay Act of 1963, the Americans with Disabilities Act of 1990 and the fair pay provisions of the Civil Rights Act of 1964 is required in order to qualify for these credits.
- 115 (Reserved)
- 200 Same Ownership
- 201 If an employer qualified for the credit but then reduced employment levels through layoffs or plant closures, the reduction in employment must continue for a minimum of five (5) years before the employer may use the reduced employment levels in the computation of additional credit. If the reduction in employment is for five (5) years or more, then the employer may requalify for the credit on any additional jobs. If the reduction has continued for less than five (5) years, then the employer may requalify in very limited circumstances. Such situations will be considered on a case by case basis. The taxpayer

should submit a letter with a request to receive the credit and a justification for the request. The credit will be granted at the discretion of the Commissioner.

- 202 If an employer retains ownership of a facility and replaces some, or all, of the existing equipment, but makes the same or a similar product, then the base employment level is not affected by the equipment replacement. The jobs tax credit would not be available unless a qualifying increase in employment has occurred.
- 203 If an employer retains ownership of a facility, suspends operations and retools the production floor with ninety-five percent (95%) new equipment that makes a new product not similar to the old product, then the facility will be treated as a new facility.
- 204 If an employer closes an old facility and opens a new facility making the same or a related product, then the employment level at the old facility would be used to determine whether employment increases at the new facility qualify for the jobs tax credit.
- 205 (Reserved)
- 300 Different Ownership
- 301 If an employer sells a plant to a related party, then the related party will be treated the same as the employer. If an employer sells a facility to an unrelated third party, and the new owner continues the old operations, then the new owner must exceed the old owner's peak employment by a qualifying increase in order to receive any jobs tax credit. If an employer sells a facility to an unrelated third party and the new owner suspends operations to retool the production floor, then the facility will be treated as a new facility for the new owner. However, the retooling must include replacing ninety-five (95%) of the equipment to make a new product that is not similar to the old product.
- 302 If an employer ceases operations at a facility for a year or more and sells the facility to an unrelated third party, then the facility will be treated as a new facility for the new owner, even if the same or a similar product is being made. If the new owner has shut down a facility with similar operations at the same time, then the facility will not be treated as a new facility. If a completely different product is being made, the one-year shut down requirement may be shortened. This will be considered on a case by case basis.
- 303 If, the new employer requesting the incentive produces a product that was manufactured at a facility in this state that was closed, then the new employer will not earn the jobs tax credit for the new facility unless the employment levels exceeds any previous high at the closed facility. If the employer who owns the new facility is located in this state, it will be able to earn the jobs tax credit, but only to the extent that its level of employment plus the level of the original location (up to any previous high level of employment at the old location before the closing or retooling level) combined is in excess of any previous high level of employment at the original location. The definition of original product will include upgrades and modifications of a normal product line.

304 A business that acquires an unrelated business enterprise that has ceased operation and laid off all of its employees, and that continues operation of the enterprise in the same or similar type of business as the old owner may be eligible for the credit. The new owner would be eligible for the credit as long as the cessation of the business enterprise by the old owner was not for the purpose of securing new eligibility for the credit.

305 This credit is authorized under Miss. Code Ann. Section 57-73-21(2), (3) and (4).

306 (Reserved)

400 Jobs Tax Credit for Economically Distressed Communities

401 This credit is available to the same types of businesses which are eligible for the basic Jobs Tax Credit. These businesses must create at least ten (10) new full-time jobs and be located in an area within a city where thirty percent (30%) of the residents are below the national poverty level and where the unemployment rate is 1½ times the national average.

402 All other requirements, instructions or limitations as previously defined for the basic Jobs Tax Credit in Sections 100 through 300 above apply, except for the following:

2. The credit can offset fifty percent (50%) of the income tax liability attributable to the income generated by the operations in this state.

403 The MDOR must certify the area as an economically distressed community before the Economically Distressed Community Jobs Tax Credit can be taken. For the MDOR to certify an economically distressed community, the city officials must provide the following:

1. A map detailing the area to be certified.
2. A copy of the documentation from the US Census Bureau proving that thirty percent (30%) of the residents are below poverty level.
3. The census tract grouping unemployment rate for the area and the national unemployment rate for the same area for the same time period.
4. The population of the city.

After receiving this information, the MDOR will verify the information and, if all requirements are met, will certify the area as an economically distressed community.

404 This credit is authorized under Miss. Code Ann. Section 27-7-22.27.

405 (Reserved)

2. This Brownfields Jobs Tax Credit cannot be taken in conjunction with the National or Regional Headquarters Credit or the Research and Development Skills Credit.

2. The amount of credit is equal to \$1,000 per new full-time job regardless of where the business is located.
3. The business may choose when to begin taking advantage of the credit, but it must be within five (5) years of the beginning of commercial production.
4. The credit is good for a period of 20 years.
5. The credit can offset 100% of the income tax liability attributable to the income generated by the alternative energy project in this state.

- 704 (Reserved)
- 800 Applying for the Credit and Claiming the Credit
- 801 An application is not required to qualify for the Jobs Tax Credits but may be submitted for review. An application is only required in order lock in the county classification.
- 802 If an employer plans to expand its labor forces in a facility in a Tier Three or Tier Two county, then the employer may complete the certification application and make a request in a letter that the current designation of the county be retained. This allows an employer to retain the county designation and the amount of anticipated credit that was in effect for the expansion.
- 803 If there is no construction or expansion of a facility, the expansion in labor forces must take place by the end of the following tax year for the certification and county designation to remain valid. If there is a construction or expansion of a facility, it must begin within one (1) year of the certification for the certification and county designation to remain valid.

This initial certification applies to the credits covered under the specific certification generated during years two (2) through six (6) after the expansion of labor. This certification to lock in the county's classification will not be granted retroactively. For subsequent qualification and credit for additional increases in employment, the county designation in effect at that time should be used to determine the qualification and amount of the credit.

804 For detailed instructions concerning the application process or claiming the credits see the Mississippi Tax Incentives, Exemptions and Credits Book.

805 (Reserved)

35.X.01 revised effective June 1, 2016.

Chapter 02 National or Regional Headquarters Credit and National or Regional Headquarters Relocation Tax Credit

100 National or Regional Headquarters Tax Credit

101 A credit is available to any company transferring or establishing a national or regional headquarters from within or outside the State of Mississippi and creating a minimum of twenty (20) jobs at the headquarters. A credit is also available to any company expanding or making additions to its national or regional headquarters already in Mississippi after January 1, 2013, and creating a minimum of twenty (20) jobs at the headquarters. The minimum increase of twenty (20) jobs must occur within one (1) year.

102 The amount of the credit is \$500.00 for each net new full time employee for the first five (5) years. The amount of the credit is increased to \$1,000.00 provided the employee's salary (excluding benefits not subject to Mississippi income tax) is one hundred twenty-five percent (125%) of the average annual wage of the state. If the employee's salary (excluding benefits not subject to Mississippi income tax) is two hundred percent (200%) of the average annual wage of the state, the credit is increased to \$2,000.00 for that employee. The average annual wage is the most recently published average annual wage as determined by the Mississippi Department of Employment Security.

103 A full-time employee is an employee who works at least thirty-five (35) hours a week. To be used in the credit computation, the employee must be located in Mississippi and subject to withholding tax. Part-time jobs cannot be combined to add up to a full-time job.

104 No enterprise in the business of transporting, handling, storing, processing or disposing of hazardous waste is eligible to receive these credits. No regional or national sales office is eligible for these credits.

105 A national headquarters is that office or location of a multi-state business where managerial, professional, technical and administrative personnel are domiciled and employed. It is the location where the centralized functions such as financial, legal, technical and personnel functions are performed. The function and purpose of the national

headquarters is to plan, direct and control all aspects of the organization's operations and it has final authority over all regional offices, operating facilities or any other offices of the business enterprise. The national headquarters is subordinate only to the ownership of the organization or its representatives.

- 106 A regional headquarters is one of several management offices or facilities of a multi-state business that is responsible for planning, directing and controlling all aspects of the business operations within a sub-divided area of the United States. A regional headquarters performs a function that is separate from the management of operational facilities within the region. A regional headquarters performs functions similar to the national headquarters, but within a more limited area. It has final authority over all matters within its region and is subordinate only to the national headquarters.
- 107 Before the credit is granted, the taxpayer must show that the headquarters will have officers and other high level employees with the support staff normally associated with a headquarters. The support staff for the headquarters is also included in the computation of the credit. The support staff are those full time employees required to assist management and other headquarters personnel to perform functions that are unique to, or required by, the headquarters operation. The classification of support personnel as headquarters employees is dependent on their duties being in direct relationship to the functions of the office or facility and not solely on their physical presence at the location. Employees who are physically present at the location, but whose work is not related to the office functions of the headquarters, such as salesmen, truck drivers, janitors, etc., are not considered headquarters personnel and may not be counted toward the minimum twenty (20) jobs to be created.
- 108 Companies that transfer full time headquarters employees into the state that are employed in Mississippi for less than twelve (12) months will be allowed a pro-rated portion of the yearly credit in the first and last years. The amount of the credit is pro-rated based on the number of months the employee is employed in this state divided by twelve (12).
- 109 If the number of jobs falls below the twenty (20) required within a year, the credit is lost for that year and cannot be recovered. If the minimum number of jobs is achieved again, the credit is available for the remainder of the original five (5) year period. The original period is not extended.
- 110 If the salaries that originally qualified for the additional amount of credit fall below the required average annual state wage, the amount of credit must be adjusted for that year and cannot be recovered. But, if the salaries once again meet the criteria, the additional credit is available for the remainder of the original five (5) year period.
- 111 The total of the Jobs Tax Credit, the National or Regional Headquarters Credit, the National or Regional Headquarters Relocation Credit and the Research & Development Skills Credit is limited to fifty percent (50%) of the Mississippi Income Tax liability. The unused portions can be carried forward for up to five (5) years from the original year in which the excess credit could not be used, but you may use the oldest year's unexpired

credit first. They may be used in combination with any of the other credits. The credit is not refundable.

- 112 The sale, merger, acquisition, reorganization, bankruptcy or relocation from one county to another county within the state of any business enterprise may not create new eligibility in the current or any succeeding business entity, but any unused credit may be transferred and continued by any transferee of the business enterprise. The Department of Revenue shall determine whether qualifying net increases have occurred or proper transfers of credit have been made and may require such information as needed for substantiation and qualification.
- 113 The credit cannot be used by any business enterprise or corporation other than the business enterprise actually qualifying for the credits. Credit received by a partnership, LLC or an S-Corporation may be passed through to offset tax due from the activity that created the credit. The credit is subject to the same limitations that the pass through entity would have had. The tax due on salaries or wages paid by an S-Corporation and guaranteed payments to partners by a partnership cannot be offset by the credit.
- 114 If the permanent business enterprise is located in an area that has been declared by the Governor to be a disaster area and as a direct result of the disaster the business enterprise is unable to use the existing carryforward, the Commissioner of the Department of Revenue may extend the period that the credit may be carried forward for a period of time not to exceed two (2) years. The extension must be authorized in writing by the Commissioner.
- 115 This credit is authorized under Miss. Code Ann. Section 57-73-21(5).
- 116 (Reserved)
- 200 National or Regional Headquarters Relocation Tax Credit
- 201 A relocation income tax credit is available to any company that transfers or relocates its national or regional headquarters to Mississippi from outside Mississippi in an amount equal to the actual relocation costs paid by the company. A minimum of twenty (20) jobs must be created in order to qualify for the credit.
- 202 Relocation costs for which the relocation income tax credit may be taken includes nondepreciable expenses that are necessary to relocate headquarters employees to the national or regional headquarters. These qualified relocation expenses include travel expenses for employees and members of their households to and from Mississippi in search of homes and moving expenses to relocate furnishings, household goods and personal property of the employees and members of their households and other similar nondepreciable relocation expenses.
- 203 The relocation credit is applied to the tax year in which the relocation costs are paid. The maximum cumulative amount of tax credits that may be claimed by all taxpayers claiming

a relocation tax credit in any one (1) fiscal year cannot exceed One Million Dollars (\$ 1,000,000.00), exclusive of credits that might be carried forward from previous years. A company may not receive a credit for the relocation of an employee more than one (1) time in a twelve-month period for that employee.

204 This credit may be used in combination with any of the other credits. The total of the Jobs Tax Credit, the National or Regional Headquarters Tax Credit, the National or Regional Headquarters Relocation Tax Credit and the Research and Development Skills Tax Credit is limited to fifty percent (50%) of the income tax liability attributable to the income derived from operations in this state for that year. Any excess credit amount can be carried forward for up to five (5) years from the original year in which the excess credit could not be used. The credit is not refundable.

205 If the permanent business enterprise is located in an area that has been declared by the Governor to be a disaster area and as a direct result of the disaster the business enterprise is unable to use the existing carryforward, the Commissioner of the Department of Revenue may extend the period that the credit may be carried forward for a period of time not to exceed two (2) years. The extension must be authorized in writing by the Commissioner.

206 This credit is authorized under Miss. Code Ann. Section 57-73-21(7).

207 (Reserved)

300 Applying for the Credits and Claiming the Credits

301 To apply for the credits, an Application for Certification of Economic Incentives and a letter requesting the credit must be submitted. The letter must contain sufficient information to allow a determination of whether the location qualifies as a national or regional headquarters. A list of eligible relocation expenses must be provided when applying for the National or Regional Headquarters Relocation Tax Credit. A letter will be issued informing the taxpayer if the applicable credit is granted.

302 Compliance with the equal pay provisions of the federal Equal Pay Act of 1963, the Americans with Disabilities Act of 1990 and the fair pay provisions of the Civil Rights Act of 1964 is required in order to qualify for these credits.

303 For detailed instructions concerning the application process or claiming the credits see the Mississippi Tax Incentives, Exemptions and Credits Book.

304 (Reserved)

Chapter 03 Research and Development Skills Credit

100 Under Miss. Code Ann. Section 57-73-21(6), a credit of \$1,000.00 is available for the first five (5) years for each net new full-time employee in any job requiring research and development skills. The employee must be engaged in research and development

activities. Qualification of jobs for this credit would require at a minimum, a Bachelor's degree in a scientific or technical field of study from an accredited four (4) year college or university, employment in the employees' area of expertise, compensation at a professional level and two (2) years of related job experience. Examples are chemists and engineers.

- 101 This credit is available to most companies regardless of the business in which it engages. However, no business enterprise for the transportation, handling, storage, processing or disposal of hazardous waste is eligible to receive this credit.
- 102 A full time employee is an employee who works at least thirty-five (35) hours a week. The employees must be located in Mississippi and subject to Mississippi withholding tax. Part-time positions cannot be combined to add up to a full-time position.
- 103 If the employee is employed in Mississippi for less than twelve (12) months, credit will be allowed for a pro-rated portion of the yearly credit in the first and last years. The amount of the credit is pro-rated based on the number of months the employee is employed in this state divided by twelve (12).
- 104 The total of the Jobs Tax Credit, the National or Regional Headquarters Credit, the National or Regional Headquarters Relocation Credit and the Research & Development Skills Credit is limited to 50% of the Mississippi Income Tax liability. The unused portions can be carried forward for up to (5) years from the original year in which the excess credit could not be used. This credit may be used in combination with any of the other credits and is not refundable.
- 105 The sale, merger, acquisition, reorganization, bankruptcy or relocation from one county to another county within the state of any business enterprise may not create new eligibility in the current or any succeeding business entity, but any unused credit may be transferred and continued by any transferee of the business enterprise. A letter detailing the facts surrounding such an occurrence and requesting a ruling on the eligibility of any credits must be presented to the Department to determine whether qualifying net increases have occurred or proper transfers of credit have been made.
- 106 The credit cannot be used by any business enterprise or corporation other than the business enterprise actually creating the jobs qualifying for the credits. Credit received by a partnership, LLC or an S-Corporation may be passed through to offset tax due from the activity that created the credit. The credit is subject to the same limitations that the pass through entity would have had. The tax due on salaries or wages paid by an S-Corporation and guaranteed payments to partners by a partnership cannot be offset by the credit.
- 107 Compliance with the equal pay provisions of the federal Equal Pay Act of 1963, the Americans with Disabilities Act of 1990 and the fair pay provisions of the Civil Rights Act of 1964 is required.
- 108 An application is not required in order to take this credit but may be submitted for review. The taxpayer may apply for certification of the credit by submitting the Application for

Certification of Economic Development along with a letter requesting the credit. The letter should contain sufficient information to allow a determination of whether the employee qualifies for the credit

- 109 For detailed instructions concerning the application process or claiming the credits see the Mississippi Tax Incentives, Exemptions and Credits Book.
- 110 This credit is authorized under Miss. Code Ann. Section 57-73-21(6)
- 111 (Reserved)

Chapter 04 Basic Skill Training or Retraining Tax Credit

- 100 An income tax credit is allowed to employers that are:
 - 1. Permanent business enterprises primarily engaged in manufacturing, processing, distribution, wholesaling, research and development and warehousing.
 - 2. Permanent business enterprises designated by rule or regulation of the Mississippi Development Authority as air transportation and maintenance facilities, final destination or resort hotels having a minimum of (one hundred fifty) 150 guest rooms, recreational facilities that impact tourism, movie industry studios, telecommunication enterprises, data or information processing enterprises, computer software development enterprises or any technology intensive facility or enterprise.
 - 3. Employers that have qualified for the national or regional headquarters credit.
- 101 The credit allowed is fifty percent (50%) of qualified expenses, not to exceed fifty percent (50%) of the income tax liability. Any excess credit will not be refunded, but may be carried forward for up to five (5) years. The program must be certified for a specific number of years not to exceed five (5) years. The credit may offset up to fifty percent (50%) of the income tax due. It may be used in combination with any of the other credits. The training or retraining credit cannot exceed \$2,500 in the aggregate per employee for a three (3) year period.
- 102 To qualify for the credit, the basic skills training or retraining must be offered through, or be approved by, the community or junior college in the district where the business is located. Employers must be certified as eligible for the tax credit by the local community or junior college that serves the employer and the Mississippi Department of Revenue. The training does not have to be on the community or junior college campus to qualify if it is sponsored and approved by the college. A copy of the certification must be furnished to the Department of Revenue by the taxpayer when the certification is granted. When a return is filed on which the credit is taken, a schedule showing the expenses and computation of the credit and a copy of the certification must be attached to the return.
- 103 The credit may be available for basic skills training that enhances reading, writing or math skills up to the twelfth (12th) grade level for employees who are unable to function effectively on the job due to deficiencies in these areas or who would be displaced because such deficiencies will inhibit their training for new technology. The credit may also be

available for retraining programs for hourly employees who have been employed for a minimum of one (1) year by the employer that, upon successful completion, increase the employee's opportunity for consideration for promotion or retention with the employer. For either type of training to qualify for the credit, it must be job-related and increase opportunities for employee advancement or retention.

- 104 Employers may contact the Mississippi Community College Board Office of Workforce Education for a list of Community Colleges and the cities where the main campuses are located at:

Office of Workforce Education

- 105 The credit is applied to qualified training or retraining expenses, which are expenses related to instructors, instructional materials and equipment and the construction and maintenance of facilities by the employer that are designated for training or retraining provided through such community or junior college or training approved by such community or junior college. The qualified expenses are net of any reimbursement.
- 106 Tuition reimbursement programs will qualify as long as they are related to the employee's job and there is an agreement between the employer and employee that the employee must work for the employer for a reasonable period of time after the tuition reimbursement program has been completed so that the training may be utilized. The expenses that qualify are net of any reimbursement or paybacks to the employer. If an employee begins a program and is terminated for cause by the employer, the employer does not have to recapture the amount previously taken as a credit, unless the employee has to repay the employer. If so, the employer has to recapture those amounts.
- 107 The credit cannot be used by any business enterprise or corporation other than the business enterprise actually qualifying for the credit. Credit received by a partnership, LLC or S-Corporation may be passed through to offset tax due from the activity that created the credit. The credit is subject to the same limitations that the pass-through entity would have had. The tax due on salaries or wages paid by an S-Corporation and guaranteed payments to partners by a partnership cannot be offset by the credit.
- 108 The credit is not refundable. An expense cannot be used both as a credit and a deduction. If a credit is based on an expense, then the amount of the credit taken must be added back to Mississippi taxable income in the year the credit is used.
- 109 This credit is authorized under Miss. Code Ann. Section 57-73-25, as amended.

The base investment tab must include a listing of purchase invoices showing the name and address of the vendor, date, description of items purchased, and the amount of expenditures made to those vendors. Proper documentation to prove payment by the MPPC that was certified for the rebate is also required. This includes copies of bank statements, credit card statements and any other form of payment used to purchase items eligible for the rebate. Include at what stage of production the purchase was made: Preproduction, Production or Postproduction. - 502 The payroll tab should list residents of Mississippi, including social security numbers, names, addresses, W-2s, a breakdown of the amount of wages paid to and withheld from those individuals, employee benefits and employer fringes. The payroll documentation should include a payroll detail with a breakdown of wages, employee benefits and employer fringes by employee.
- 503 All tabs of the spreadsheet must contain links to the PDF files of all source documentation contained in the rebate request. All source documentation must be kept for verification and additional documentation may be requested. The MDOR conducts a line-by-line review of the spreadsheet submission. The rebate request (in the form of an Excel spreadsheet) and PDF files are to be submitted to the MDOR on a USB Flash Drive (USB) and mailed to: Mississippi Department of Revenue, Office of Tax Policy,

P.O. Box 22828, Jackson, MS 39215.

- 504 Maintain a copy of the USB submission in case a USB is lost or damaged in the mail. In addition, due to the agency's data security policies, any USB received by the Department cannot be returned to its original sender or the representatives of the production company. It is recommended that the USB be password protected due to the sensitive information contained within and that the password be emailed to the Department rather than being enclosed with the USB on a letter or written note.
- 505 When the rebate request is received the MDOR will determine if the submission is in the proper format to perform the review. If the request is not in the proper format, it will be sent back with an explanation containing the formatting requirements that were not met. The rebate request will be denied if a suitable submission is not received within six (6) months. A rebate request that is submitted in the proper format will be reviewed and the review will be sent to the MPPC. The MPPC must respond to the MDOR review or any subsequent reviews within six (6) months. If there is no response in the form of additional documentation or agreement to the rebate amount, then the qualifying rebate amount will be paid out and the remaining request will be denied. When a rebate request is denied the MPPC should review their appeal rights located at www.dor.ms.gov. The MDOR will review any additional information provided by the MPPC for a period of one year from the denial date.
- 506 After reviewing and approving the rebate request, the MDOR will issue the rebate check to the certified production company. The rebate check is not transferrable.
- 507 (Reserved)

The total of all calculated misstatements for each population tested will be deducted from the original submission to arrive at a revised rebate amount.
- 611 Any adjusted amounts per the sample will be presented to the CPA. Additional information may be provided to the DOR for the transaction in the sample. - 101 A sales and/or use tax exemption for construction or expansion is available for an eligible business that has obtained bond financing through the Mississippi Business Finance Corporation (MBFC). The type of eligible businesses depends upon the type of bond issued.
- 102 The Mississippi Development Authority (MDA) and the MBFC determines whether a business qualifies for financing under these programs and the MDOR determines how the exemption is applied.

- 103 The bonds that qualify for the exemptions are authorized by:

 2. Sections 57-61-1 et seq., Miss. Code Ann., and is known by the short title of the "Mississippi Business Investment Act".
 3. Sections 57-71-1 et seq., Miss. Code Ann., and is known by the short title of the "Mississippi Small Enterprise Development Finance Act".
- 104 All bonds must be issued within eighteen (18) months from the inducement date or an extension must be requested by the business addressed to the MDOR. If bonds do not remain outstanding for at least one (1) year the purchase is not considered to be made with bond proceeds and would not be exempt from sales or use tax. A full accounting of the draws and expenditures associated with bond proceeds is required.

- 300 Mississippi Business Investment Program
- 301 The Mississippi Business Investment Program, administered by the MDA, is designed for making low interest loans to counties and incorporated cities or towns (Local Sponsors) to finance improvements necessary to complement investments by private companies that

create and maintain new full-time jobs. The bonds issued are general obligations bonds of the State of Mississippi. The sales and use tax exemption is for all purchases of tangible personal property and services to establish the facility that are made with bond funds.

302 Eligibility for the assistance provided by the Mississippi Business Investment Program is determined by the MDA and is limited to the following types of projects: Agricultural, industrial, manufacturing, aquacultural or maricultural, tourism, service, regional shopping malls and research and development projects.

303 Temporary borrowings in anticipation of the issuance of the bonds authorized by this program will mirror the exemption of the bonds. A promissory note from the Local Sponsor to the State evidences these borrowings. If the project agreement is unfulfilled, the State can require the Local Sponsor and/or the private company to repay the unpaid loan principal with interest and penalties. If necessary, a portion of the Local Sponsor's sales tax and/or homestead exemption reimbursement may be withheld in an amount that is sufficient to repay the obligation.

400 Mississippi Small Enterprise Development Finance Program

500 Purchases

501 The purchases must be sold directly to, billed directly to and paid for directly by the entity induced by MBFC. The exemption does not cover tagged vehicles or ongoing expenses and supply items that are not purchases required to establish the facility.

502 Bond financing exemptions do not apply to the three and one-half percent (3½%) or the one and one-half (1½%) contractor's tax levied in Miss. Code Ann. Section 27-65-21. The contractor's tax is levied directly on the contractor for the privilege of performing contracts exceeding \$10,000 for the construction, repair or renovation of non-residential real property. The contractor's tax is levied on the contractor's gross receipts from the

construction contract regardless of any exemptions the project owner may have. Purchases of component materials for a construction project made by the contractor and reimbursed by the project owner are considered part of the contractor's gross receipts subject to the three and one-half percent (3½%) contractor's tax. Miss. Code Ann. Section 27-65-21(1)(a)ii provides that amounts included in commercial construction contracts with manufacturers representing the sale of manufacturing machinery shall be taxed at the 1 ½% reduced rate of tax in lieu of the 3 ½% contractors' sales tax. However, the owner's exemption will apply on the sale by the construction contractor to the project owner of manufacturing machinery that retains its identity as tangible personal property.
