THIS IS AMENDMENT ONE (1) TO THE REQUEST FOR PROPOSAL.

Question #1:

Vehicle Title Specifications 3.6.3, states, “Paper shall contain a micro printed, blue-white plastic embedded security thread reading “Mississippi” and repeat over the entire length. This thread shall be incorporated into the paper during the paper-making process so that the thread is an integral part of the paper. The thread shall be in the same location on all title forms.”

The embedded security thread for the current titles contains the verbiage “State of Mississippi” in a repeating pattern. Is the intent to continue with this language as indicated in 3.2.4? The title paper needs to be printed with the following specifications: Read “State of Mississippi” over the entire length of the document?

Answer:

Yes. The intent is to use the same language that is currently being used.
