

## **Chapter 08 Procedure for Delisting or Deleting Alcoholic Beverages**

- 100 Any items on the Division's price list will be delisted for failure to meet the current sales revenue formula prescribed by the Division; however, the Department may, in its discretion, continue to maintain an item in its price list that does not meet the minimum revenue standard. Furthermore, the Department reserves the right to delist any item for violation of any law or regulation or when, in its opinion, the best interest of the Division may be served.
- 101 The storage of items at the LDC Warehouse is strictly a voluntary act by its owner(s). The Department retains the right to regulate the location of all items placed in bailment. Manufacturers shall manage the inventory of items stored in the LDC Warehouse in compliance with the parameters as set forth by the Division. Manufacturers who do not comply with the guidelines as set forth, may, at the discretion of the Division, be stopped from listing new products and special purchase allowances. Failure of a company to stock a bailment item after the effective date of the price list may result in the delisting of the item.
- 102 Any bailment item voluntarily removed by the company, or delisted by the Department, shall be removed from the State at the direction of the Department. Delisted items must be removed from bailment within thirty (30) days from the date of delisting. Any item delisted will not be eligible for re-listing for a minimum of one (1) listing period. Delisted items may, subject to Department approval, be offered as a special order item pursuant to Title 35, Part II, Subpart 4, Chapter 5 of the Mississippi Administrative Code.
- 103 All products remaining after the thirty (30) day period shall become the property of the Division for disposition as it sees fit.
- 104 (Reserved)
