The reporting method for the monthly and fiscal year reports for Petroleum Tax has changed. Starting from the September 2014 filing period going forward, the total due will no longer equal the total collected for each period. The Gross Gallons, Tax, Government Exemptions, and Authorized Credits will reflect the return totals for the return period. The Collections will reflect the total collected during that period. The total reported and the total collected will no longer match. Additional changes may be forthcoming before this format is finalized.
