

Thank you for your interest in reporting your Medical Marijuana dispenses to the MS Prescription Monitoring Program (PMP) as required by the [Mississippi Medical Cannabis Act](#). All dispensaries shall report medical cannabis dispensing information every 24 hours.

Please see the [MS Data Submission Guide for Medical Marijuana Dispensers](#) for in-depth step by step instructions for submitting your dispensing data. While you are able to submit manually, it is highly recommended that you work with your software vendor to electronically submit. The ASAP format is the basis for the submitting guide and is a national PMP Standard that should be highly familiar to most vendors.

Please take particular note that any medical marijuana dispensing should be reported in the equivalent MCEU (MS Cannabis Equivalent Unit). There are 4 categories of medical marijuana and the NDCs that will be reported are as follows:

NDC 67660000001 Marijuana Flower Smoked: 1 each = 1MCEU

NDC 67660000002 Marijuana Concentrate vape/tincture: 1 each = 1MCEU

NDC 67660000003 Marijuana Infused Edibles: 1 each = 1MCEU

NDC 67660000004 Marijuana Infused Non-Edibles 1 each = 1MCEU

Number of Units	Time Period
6 units	one week
24 units	30 day period

Unit	Equivalency
	1 3.5 grams flower
	1 1 gram concentrate
	1 100 mg. infused product
