Mississippi Catastrophe Savings Tax

GENERAL

A taxpayer can have a Catastrophe Savings Account established to help pay the insurance deductible under an insurance policy for the taxpayer's legal residence that covers hurricane, flood, windstorm, or other catastrophic event damage, to help pay expenses not covered by the insurance policy after the deductible is paid, and to help pay self-insured losses for the taxpayer's legal residence.

The taxpayer can receive an adjustment to gross income for the amount contributed to the catastrophe savings account as well as exclude any distributions from that account used to pay qualified catastrophe expenses.

If the aggregate distributions exceed the qualified catastrophe expenses during the taxable year, the amount otherwise included in the taxable gross income of the taxpayer shall be reduced by the amount of the distributions for qualified catastrophe expenses.

Any tax paid on amount of excess distribution included in gross income shall be taxed at an increased rate of 2 ½% (.025), reported on line 22 of Form 80-105 and line 24 of Form 80-205.

LIMITATIONS

The following limitations are applicable to the Catastrophe savings account/Self-insured:

- If insurance deductible is less than or equal to \$1,000 - the contribution is limited to \$2,000
- If insurance deductible is greater than \$1,000 - the contribution is limited to the lesser of \$15,000 or twice the amount of the deductible.
- For self-insured individuals who choose not to obtain insurance, the contribution is limited to \$350,000 but may not exceed the value of the legal residence.
