TAXATION OF ESTATES AND TRUSTS

The income tax imposed upon individuals shall be applicable to the income of estates or of any kind of property held in trust as well as the net income received during the taxable year by deceased individuals who, at the time of death, were residents and who have died during the taxable year or subsequent thereto without having made a return, and the net income of resident insolvent or incompetent individuals where the fiduciary has complete charge of such income. The rate of tax, the statutory provisions respecting gross income, and with certain exceptions, the deductions, exemptions and credits allowed to individuals apply also to estates and trusts.

DEFINITIONS

A **resident estate** is the estate of a person who was a Mississippi resident at the time of death. All other estates are nonresident estates.

A **resident trust** is any trust which is administered by the trustee in Mississippi. A trust being administered outside of Mississippi shall not be considered a resident trust merely because the governing instrument or a law requires that the laws of Mississippi be followed with respect to interpretation or administration of the trust. All other trusts are non-resident trusts.

A **bankruptcy estate** is the estate of an individual involved in chapter 7 or chapter 11 bankruptcy proceedings under Title 11 of the United States Code and the estate has gross income for the tax year of \$10,000 or more. The bankruptcy estate is administered by a trustee or a debtor-in-possession.

TYPE OF ENTITY

Decedent's Estate:

An estate of a deceased person is a taxable entity separate from the decedent. It generally continues to exist until the final distribution of the assets of the estate is made to the heirs and other beneficiaries. The income earned from the property of the estate during the period of administration or settlement must be accounted for and reported by the estate.

Simple Trust:

A trust may qualify as a simple trust if:

1. The trust instrument requires that all income must be distributed currently;
2. The trust instrument does not provide that any amounts are to be paid, permanently set aside, or used for charitable purposes; and
3. The trust does not distribute amounts allocated to the corpus of the trust.

Complex Trust:

A complex trust is any trust that does not qualify as a simple trust as explained above.

Grantor Type Trust:

A grantor type trust is a legal trust under applicable state law that is not recognized as a separate taxable entity for income tax purposes because the grantor or other substantial owners have not relinquished complete dominion and control over the trust.

Generally, for transfers made in trust after March 1, 1986, the grantor is treated as the owner of any portion of a trust in which he or she has a reversionary interest in either the income or corpus therefrom, if, as of the inception of that portion of the trust, the value of the reversionary interest is more than 5% of the value of that portion. Also, the grantor is treated as holding any power or interest that was held by either the grantor's spouse at the time that the power or interest was created or who became the grantor's spouse after the creation of that power or interest.

Qualified Disability Trust:

A qualified disability trust is any nongrantor trust:

1. Described in 42 U.S.C. 1396p(c)(2)(B)(iv) and established solely for the benefit of an individual under 65 years of age who is disabled, and
2. All the beneficiaries of which are determined by the Commissioner of Social Security to have been disabled for some part of the tax year within the meaning of 42 U.S.C. 1382c(a)(3).

A trust will not fail to meet item 2 above just because the trust's corpus may revert to a person who is not disabled after the trust ceases to have any disabled beneficiaries.

ESBT (S Portion Only):

The S portion of an ESBT is the portion of the trust that consists of S corporation stock and that is not treated as owned by the grantor or another person.

Pooled Income Fund:

A pooled income fund is a split-interest trust with a remainder interest for a public charity and a life income interest retained by the donor or for another person. The property is held in a pool with other pooled income fund property and does not include any tax-exempt securities. The income for a retained life interest is figured using the yearly rate of return earned by the trust. See section 642(c) and the related regulations for more information.

Bankruptcy Estate:

A chapter 7 or 11 bankruptcy estate is a separate and distinct taxable entity from the individual debtor for income tax purposes.

Every fiduciary is required to file a Mississippi Fiduciary Income Tax Return, Form 81-110, for any resident individual, trust or estate for which he acts, or for any nonresident individual, trust or estate for which he acts that has taxable income or gain derived from Mississippi sources.

Income from Mississippi sources includes income or gain from:

- a. Real or tangible personal property located in Mississippi
- b. A business, profession or occupation carried on within Mississippi; or
- c. Services performed within Mississippi

For a nonresident estate or trust, income from the following is not considered to be derived from Mississippi sources: annuities, interest, dividends, or gains from the sale or exchange of intangible personal property, unless it is part of the income from a business, trade, profession, or occupation that is carried on within Mississippi.

BANKRUPTCY ESTATE

The filing of a bankruptcy petition for an individual debtor creates a separate taxable entity known as a bankruptcy estate. Every trustee (or debtor-in-possession) that files a Federal Income Tax Return for an individual's bankruptcy estate that has gross income of \$10,000 or more under chapter 7 or chapter 11 of the United States Bankruptcy Code must file a Mississippi Fiduciary Income Tax Return and pay any taxes due. The debtor will remain responsible for filing returns and paying taxes on any income that does not belong to the estate.

Every bankruptcy estate of an individual required to file a return must have its own EIN. The SSN of the individual debtor cannot be used as the EIN for the bankruptcy estate.

The filing of a bankruptcy petition for a partnership or a corporation debtor under chapter 7 or chapter 11 of the United States Bankruptcy Code does not create a separate legal entity for tax purposes.

WHO MUST FILE?

WHEN AND WHERE SHOULD I FILE?

Calendar year returns must be filed no later than April 15th annually. Fiscal year returns must be filed no later than the 15th day of the 4th month following the end of the fiscal year. A fiduciary's taxable year and its method of accounting are required to be the same for Mississippi income tax purposes as determined for federal income tax purposes.

Need more time to file your return?

If you will receive a refund or will not owe any additional tax, Mississippi will allow you the same time to file your return as allowed by federal. However, if you owe additional taxes, you must remit the tax due with Form 80-106 on or before the due date of the return.

The authorized extension of time to file does not extend the time for payment of tax due. Interest and penalty will apply on any underpayment of tax. See the "Interest and Penalty Provisions" section of this booklet for more information.

The return should be mailed to:

Additional Tax Due or

No Tax Due:

Department of Revenue
P.O. Box 23050
Jackson, MS 39225-3050

Refund Request:

Department of Revenue
P.O. Box 23058

LINE ITEM INSTRUCTIONS

FORM 81-110 (FIDUCIARY RETURN)

Form 81-110, Mississippi Fiduciary Income Tax Return for Estates and Trusts, is a reconciliation type return which uses the income from the U. S. Income Tax Return for Estates and Trusts, Form 1041, as a starting point. Accordingly, a complete copy of the federal return must be attached to this return, as well as a copy of all Mississippi Schedule K-1s.

Generally, federal rules and regulations relating to estates and trusts will be followed for state purposes to the extent they are not deemed contrary to the context and intent of Mississippi law.

If you had income not directly included on your federal income tax return, such as income as a Qualified Subchapter "S" Trust (QSST), include such amounts on page 2, lines 17f, 17g, 17h and 17i as needed along with supporting details.

Check or Money Order Payments: To pay by check or money order, complete the payment voucher (Form 80-106), make the check or money order payable to the Department of Revenue and mail both to P.O. Box 23075, Jackson, MS 39225-3075. Write your identification number on the check or money order. DO NOT send cash through the mail.

INTEREST AND PENALTY PROVISIONS

- **Late Payment:** Interest and penalty are charged on taxes paid late even if an extension of time to file is granted. The interest is at the rate 1/2% per month from the due date until paid. The penalty imposed for failure to pay the tax when due is 1/2% per month not to exceed 25% in the aggregate. Late payment interest and penalty apply to any unpaid tax after April 15th.
- **Failure to File:** The penalty for failure to file a return is imposed after September 30th. The penalty is 5% per month not to exceed 25% in the aggregate. The penalty imposed for failure to file is based on the amount of net tax (balance due) on the return. Such failure to file a return penalty shall not be less than \$100.

Bankruptcy Estates

If bankruptcy estate is checked, enter the bankruptcy debtor's SSN in the "Decedent / Debtor SSN" field. If there is a joint debtor, a separate Fiduciary Income Tax Return must be filed using the instructions (Form 80-100) and tax table for a married person filing separately. The estate of the joint debtor is a separate taxable entity unless the court has substantively consolidated the estates of the debtor and joint debtor. A copy of the U.S. Income Tax Return for Estates and Trusts, Form 1041, filed for the bankruptcy estate must be attached to the state return.

- **Amended Return:** If a bankruptcy case begins and is later dismissed by the bankruptcy court, the estate is not treated as a separate taxable entity. If Mississippi Fiduciary Income Tax Returns have been filed for the estate, amended returns must be filed to move income

and deductions from the estate returns to the debtor Mississippi Individual Income Tax Returns. If no Fiduciary Income Tax Returns have been filed, all income and deductions must be reported on the debtor returns.

- **Final Return:** When the bankruptcy has ended, a final Mississippi Fiduciary Income Tax Return must be filed. The date of the bankruptcy confirmation and the estate closure date must be provided.

Enter the number of Mississippi Schedule K-1(s) included with the return and attach a copy of the K-1(s) to the return.

Line 1: Taxable Income or Loss for Mississippi Purposes

Line 2: Total Income Tax Due

Line 3: Credit for Tax Paid to Another State

Individual resident, trust or estate that has taxable income or gain derived from Mississippi sources and is required to pay an income tax to another state is allowed to take a credit against its Mississippi tax due in the same year for the amount of total income tax due to the other state (subject to certain limitations). **Non-residents are not allowed this credit.**

In order to be allowed this credit, you **MUST** file a return with the other state **and** attach a copy of the return to your Mississippi return. The withholding amounts shown on your W-2 forms are **NOT** the same as actual tax paid to the other state.

Form 80-160 must be attached. Copies of withholding statements are not sufficient to establish the credit.

Miss. Code Ann. Section 27-7-77 provides for three limitations which are:

- 1) The credit may not exceed the amount of income tax due the State of Mississippi indicated on line 2;
- 2) The credit may not exceed the amount of

income tax actually paid to the other state; and

- 3) The credit may not exceed an amount computed by applying the highest applicable Mississippi rates to the net taxable income reported to the other state. Highest rates are meant to mean the highest rates at which the net taxable income reported to the other state is taxable by the State of Mississippi.

Line 4: Other Credits

The estate or trust share of allowable credit(s) should be combined and the total entered on this line. For each type of credit taken, enter the applicable two digit code on Form 80-401 as provided in the Appendix. **Form 80-401 must be attached.**

Line 14: Interest and Penalty

- **Late Payment Interest and Penalty:** An extension of time only extends the time for filing a return, not payment of the tax. If the income tax is not paid by the original due date of the return, then interest is due at the rate of 1/2% per month.

The penalty imposed for failure to pay the tax when due is 1/2% per month not to exceed 25% in the aggregate. **The penalty is based on the balance due (line 5 minus line 9). Interest and penalty for late payment is not charged on late file penalty.**

- **Late Filing Penalty:** The penalty imposed for failure to file a return is 5% per month not to exceed 25% in the aggregate. The failure to file penalty is based on the amount of net tax (balance due, page 1, line 13). **Such failure to file penalty shall not be less than \$100 and will be applied to all returns filed after the due date as well as any extensions.**

Line 15: Total Due

Add lines 13 and 14 and enter the amount on this line. The amount due must be paid in full when you file your return (or before the due date). Income distributed to non-residents of this state from investments in intangibles (dividends, interest, etc.) having a situs in Mississippi may be excluded from the non-resident's Mississippi taxable income.
