# Key to Data Fields for the Reforestation Tax Credit Tax Form for 2011

The form number is 80-315. This form must be approved by the Mississippi Department of Revenue.

Page 1:

The top left corner of the barcode is located at position x=6, y=4 on the 10/6 grid.

The top right registration mark is located at the top right corner of grid box x=80, y=4.

The lower left corner of the scanband must be located on the left and bottom edge of grid space x=6, y=19.

**"MS" to the left of the header must begin in grid space 27/4 and end in grid space 28/4 and be in an Courier 12 pt.**

The following is the labeling and the description of the items to be included in the Scanband of this form. The beginning and ending data positions are included in one of the templates for the form. The field length is included in this key for each data position. Grid positioning given is from the first grid space to the last grid space included in a data field. (Example 22/9 to 29/9 is 8 grid spaces) You should use this information to position the data on the returns. Do not use a grid overlay to determine the positions from a printed paper form. The field length specified assumes using a **Courier 12 point font**, which is the required font. **In the Scanband, the name and address fields should be left justified. All other fields should be right justified. All fields in the scanband must be filled. If a field is Blank in the scanband, your software should fill the field using a "0" (zero) for numeric fields and an "N" for alpha or alphanumeric fields.** The money field in the scanband should not contain any commas, cents, decimals or other formatting information except for the negative signs (-) as a leading indicator for any negative amount. The amounts in the body of the return should contain commas. Example -123,456 in the body of the form would appear as -123456 in the scanband.
